- Odour & scratch free metal mill
- Reversible disc for shredding (fine and coarse)
- Citrus press and 2 glass centrifugal juicer

### **Super Fast**

- 1000W: Strong motor power for fast performance
- Stainless steel blade with PowerChop technology

Food processor  
1000 W 5 in 1 setup, 3.4 L bowl

HR7757/01

# Highlights

## 3.4 L bowl and 2.2 L blender

The XL bowl allows for maximum volumes to be processed in one go, for example up to 7 portions of soup, 7 eggs whites, 1.7 kgs of dough. In addition, the 2.2 L blender easily creates up to 5 smoothie portions in one go.

## Innovative metal mill

Together with the strong motor, this metal mill can grind through the toughest of ingredients. Odours and taste are washed away unlike common plastic mills. Its shape allows for easy pouring.

## Color coded accessories/speeds

Match the color of the speed with the color of the accessory for optimized results.

## PowerChop technology

PowerChop technology is a combination of blade shape, cutting angle and inner bowl that provides a superior chopping result in both soft and hard ingredients. It is also perfect for making purées and mixing your cake batters!

## XXL Discs for faster execution

Thanks to the XXL discs (18cm), the Philips food processor will provide you a faster performance saving you time and effort while cooking.

## Dishwasher safe accessories

All Philips Food Processor accessories included in your box are dishwasher safe.

## 1000 W motor

This Philips Food Processor offers a powerful motor with 2 speeds and pulse, providing power and control to prepare all your favorite recipes.

## 2 speed settings and pulse

For best results, use the low speed setting (speed 1) to whip cream, beat eggs, create pastries and bread dough. The higher speed setting (speed 2) is well suited to chop onions and meats, blend soups and smoothies or shred, slice, grate or rasp vegetables.

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
