- 2.1 l bowl
- Accessories for + 15 functions

HR7627/01

Maximum variety of recipes, minimum effort

Create homemade breads, cakes, drinks and more

This Philips Daily collection Food Processor has a compact design including a 2.1 l bowl and a variety of high-performance accessories. Preparing delicious homemade food has never been so easy!

Benefits

Powerful precision

- PowerChop technology for superior chopping performance

Maximum variety of recipes

- Up to 5 portions in one go
- Emulsifying tool for cream and egg whites
- High-performance stainless steel disc inserts
- Sharp and strong stainless steel S blade for chopping

Easiest assembly, use and cleaning

- 2 speed settings and pulse for maximum control
- 40% larger feeding tube (compared to Philips HR7625)
- 650-Watt motor for powerful processing
- Dishwasher-safe accessories
- No mess from the centre of the bowl due to lack of inner shaft

PHILIPS

Daily Collection

Features

2 speed settings and pulse

For best results, use the low speed setting (speed 1) to whip cream, beat eggs, create pastries and bread dough. The higher speed setting (speed 2) is well suited to chop onions and meats, blend soups and smoothies or shred, slice, grate or rasp vegetables.

40% larger feeding tube

The new Philips Daily collection Food Processor comes with a feeding tube that is 40% larger than the previous HR7625 model, saving time on pre-cutting fruits and vegetables

Powerful processing

650 W

This Philips Food Processor offers a powerful motor providing power and control to prepare all your favourite recipes.

Up to 5 portions in one go

The generous 2.1-l bowl (1.5-l working capacity) enables you to blend up to 5 portions of soup in one go.

Dishwasher-safe accessories

All accessory parts of your Philips food processor can be put on the top rack of your dishwasher for easy cleaning.

Emulsifying tool

The perfect tool for whipping, whisking or emulsifying eggs or whipped cream. For best volume increase and fluffiness, use the low speed setting. Creating delicious desserts or mayonnaise has never been easier!

Stainless steel disc inserts

Simply select the right stainless steel disc insert to prepare your favourite ingredient and click it onto the disc holder. Performance has been tested extensively to provide the best slicing and shredding results.

PowerChop technology

PowerChop

PowerChop technology is a combination of blade shape, cutting angle and inner bowl that provides a superior chopping result for both soft and hard ingredients. It is also perfect for making purées and mixing your cake batters!

No mess from centre of bowl

Unlike other cheaper food processors, this Philips Food Processor lacks an inner chimney shaft in the middle of the bowl. This means that soups and other liquids won't leak from the middle of the bowl, keeping your food processor and kitchen counter clean! It even makes assembling your appliance much easier - simply click your tool holder in place in the bowl, guided by the form fitting couplings.

Stainless steel S blade

The sharp and strong stainless steel S blade chops vegetables such as onions in no time. It can also be used for other ingredients such as nuts and meats, or even to make doughs for pie crusts
