

# KitchenAid ARTISAN Siphon Coffee Maker 5KCM0812

- **Authentic, fully automated immersion vacuum brewing process through precise temperature**  
Produces coffee with a lighter body and bright rich flavour with a clean finish at the flip of a switch
- **Premium glass construction with stainless steel accents**  
Showcases the complete brewing process
- **Dual-purpose brewing and pouring lid; and reusable stainless steel and cloth filters**  
Versatile and easy to use
- **Large 1 L capacity**  
Brewing of up to 8 cups at a time
- **Extra wide neck with magnetic locking seal**  
For easy cleaning and operation
- **Secure brew unit stand**  
Secure base for the top brew unit once brewing is complete

ONYX BLACK

# KitchenAid ARTISAN Siphon Coffee Maker 5KCM0812

## TECHNICAL DATA

Max. wattage		1440 W
Voltage		220 - 240 V
Frequency		50/60 Hz
Material body		Glass, stainless steel, plastic
Lid and brew unit stand material		Polypropylene (BPA-free)
Capacity		1 L
Product dimensions	H x W x D	36.2 x 17 x 22 cm
Packaging dimensions	H x W x D	24 x 39 x 42 cm
Master pack dimensions	H x W x D	51 x 41 x 43 cm
Net weight		3.5 kg
Gross weight		4.7 kg
Master pack gross weight		10 kg
Master pack		2 units
Cord length		85.1 cm
Country of Origin		China

## What is siphon brewing?

Siphon coffee brewing, also known as “vacuum” coffee brewing, uses vapour pressure to push hot water from the carafe into an upper brewing chamber. Freshly brewed coffee then pours back down into the carafe when brewing is complete.

Siphon coffee brewing fully and evenly saturates the coffee grounds with hot water, bringing out the bright, intense flavours from your favourite ground coffee. The coffee's aroma stays trapped inside the coffee maker rather than escaping into the air, resulting in clean, crisp, and vibrant tasting coffee that drip coffee makers can't produce.

## OTHER FEATURES AND BENEFITS

**Carafe with soft-touch handle and on/off switch with white LED-on-indicator light**  
Carafe has markings on the side and is made out of premium glass.

**Reusable cloth filter**  
Use this filter to obtain a lighter coffee body. Allow for different textured coffee and is easy to use and rinse clean.

**Top brew unit with handle, stainless steel filter and durable stainless steel siphon tube**  
Made out of premium glass and stainless steel.  
The stainless steel filter is easy to rinse clean, no disposable filters required.  
Optional cloth filter also available.

**Cleaning brush/coffee scoop**  
Dual purpose carafe brush and coffee scoop in one multifunctional tool.

**Brew unit stand**  
Stand securely holds the brew carafe in place once brewing is complete.
