- light weight iron makes ironing easier and more comfortable
- Our best gliding soleplate
- Tap water friendly, refill anytime during ironing
- The safety auto off function automatically switches off
- Descale effectively and easily your appliance to prolong it
- Saving energy with ECO mode

# Highlights

## Easy De-Calc Plus

Ultra long lasting steam performance: Philips' exclusive and ideally positioned Easy De-Calc Plus function provides the ideal way to get rid of limescale and extend the lifetime of your steam generator iron. Your iron will remind you with light and sound when to perform cleaning. Only when your appliance is cold, simply open the Easy De-Calc knob, and collect the dirty water and scale in a cup.

## Energy saving

By using the ECO mode, with reduced amount of steam, you can save energy without compromising on the ironing results. For faster ironing, switch to Turbo mode, which generates more steam.

## Comfortable to handle

Your steam generator's iron has the ideal weight: amazingly light weight and comfortable to handle. It glides easily over your garments, removes the toughest creases in no time, and reduces stress on your wrist. It makes also vertical steaming very easy and effective. You can now comfortably & effectively remove the creases of your delicates, like jackets, dresses and even difficult to iron garments with pleets, decorations, buttons and etc in vertical way.

## Very powerful steam

The innovative steam engine generates ultra powerful steam which penetrates deep inside the garments making ironing faster and better. Steam power can be regulated to fit your needs.

## OptimalTEMP technology

Now you can iron from jeans to silk with no temperature setting needed. Guaranteed no burn on all ironable fabrics. Revolutionary

technology with the 1) Advanced Smart Control Processor, which controls precisely the soleplate temperature 2) Ultra powerful Multi-chamber Cyclonic steam engine which delivers more powerful consistent steam and Ultra light weight iron, making ironing easier and faster.

## Refill tap water any time

Your steam generator iron is designed to use tap water. While ironing, when you run out of water in the watertank, you can refill it easily without waiting or turning your appliance off.

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
