

## Garment Steamer

- 2200W, 90g steam boost
- 2-in-1 with ErgoFit board
- 5 steam levels
- Double pole with Hang&Lock

GC618/66

# Professional results for all garments

With PureSteam technology and ErgoFit board

Thanks to the innovative PureSteam technology and tiltable ErgoFit board, the new ProTouch 2-in-1 garment steamer ensures powerful steam performance to give you professional and crisp results for years to come!\*

## Benefits

### Professional results

- Penetrating powerful steam with up to 3 bar pump pressure
- 90g steam boost for tough wrinkle removal
- Tiltable ErgoFit board to achieve crisp results
- Precision tips for challenging areas

### More efficiency, less effort

- PureSteam technology ensures powerful steam over the years
- No descaling is needed, thanks to the PureSteam technology
- Select steam levels directly from the handle

- 5 steam levels for different kinds of fabrics
- Auto steam stop for saving energy and water

### Reliable and safe

- Automatically switches to standby mode for safety
- Safe to use on all garments
- PVC free silicon steam hose

**PHILIPS**

## Features

### Penetrating powerful steam

The innovative PureSteam technology is fundamentally different from other steamers. With up to 3 bar pump pressure, it generates powerful steam which penetrates deep into the garments, enabling you to remove creases with only a few strokes.

### Steam boost

By long pressing the steam selection button on the handle, up to 90g powerful steam boost is triggered, helping you to remove tough wrinkles easily.

### Powerful steam over the years

Other steamers are easy to lose steam performance over time due to scale build-up, even if you clean it regularly. With the innovative PureSteam technology, the heater is automatically descaled while generating steam. This prevents scale from building up. It is so effective that the steam is powerful for years to come\*.

### No descaling needed

Steamers need to be descaled regularly to ensure steam performance. With our new PureSteam technology, the heater is automatically descaled while generating steam, so you don't need to worry about it.

### Tilttable ErgoFit board

The ErgoFit board is designed to suit how you steam. It can be tilted by 30°, which gives stable and comfortable support to make pleats and achieve crisp results. Also, the shoulder shape of the board provides a better fit for the garment.

### Easy steam level selection

By pressing the steam selection button on the handle, you can easily change steam level for different fabrics - no need to bend down!

### 5 steam levels

Set your preferred steam level for optimal results on different kinds of fabrics.

### Auto steam stop

When you want to pause during steaming, just put the steamer head on the dock and the steam will automatically stop, saving both energy and water

### Precision tips

The Precision tips of the steamer head enable you to reach the challenging areas, such as the collar, the shoulder, and the in-between buttons, giving you precise results.

### Safety auto off

When the water runs out, the power light will start blinking to remind you. If the product hasn't been used for another 8 minutes, it will go to standby mode automatically, ensuring safety.

## ProTouch 2-in-1

### Safe to use on all garments

The steamer is safe to use on all fabrics. It is a great solution for delicate fabrics like silk and cashmere.

### PVC free silicon steam hose

The steam hose is made of silicon material which is the safe and healthy choice for use with steam. As the safety and health of your family is important, no PVC is used in the steam hose.

## Specifications
