PHILIPS

Highlights

PureSteam technology

PureSteam technology is an innovative technology that prevents calc from building up around the steamer's engine. It enables consistent powerful steam for years to come.

Quick calc release

Thanks to the quick calc release, your appliance can last for longer with the same steam performance.

SmartFlow heated plate

The SmartFlow heated plate prevents condensation on your garments while still being 100% safe on all your clothes even delicates.

2-in-1 function

The 2-in-1 function enables both vertical and horizontal steaming. When steaming horizontally on a flat surface, you can achieve better results especially on tricky areas like collars and cuffs.

XL water tank

The 200 ml water tank enables steaming up to 3 garments in one go. Enough for you quick touch ups before leaving the house!

Brush accessory

The brush attachment opens the fabric fibers and enables better steam penetration. It is especially good for thicker garments like jackets and coats. It can also help remove dirt and pills.

Safe on all garments

The steamer is safe to use on all fabrics. It is a great solution for delicate fabrics like silk and cashmere.

Fast heat-up time

Ready to steam in no time. Just plug it in, wait for less than 1 minute... steam & go!

Continuous steam

Thanks to the electric pump, you do not need to pump manually. Just hold the trigger pressed and steam comes continuously.
