

Handheld garment steamer

- 1500W, up to 28g/min
- PureSteam technology
- XL water tank
- 2-in-1 function

GC440/46

Your new wardrobe Essential

Ideal for quick touch-ups and delicate clothes

Thanks to the innovative PureSteam Technology and quick calc release, the new StyleTouch garment steamer ensures powerful steam performance for years to come! Quick, safe & easy, it is perfect for last minute ironing and delicate clothes.

Benefits

Quick and powerful crease removal

- PureSteam technology for consistent powerful steam over time
- 2-in-1 vertical & horizontal steaming for better results
- Ready in 60seconds
- More powerful steam up to 30g/min for faster results

Easy to use & safe

- Quick calc release
- Large water tank for longer steaming
- Automatic continuous steam delivered by electric pump

- SmartFlow heated plate to prevent wet spots
- Brush accessory for thicker fabrics
- Safe to use on all delicate fabrics like silk
- Safe resting position on base

Refresh clothes without washing or dry cleaning

- Powerful steam removes odors and kills 99,9% of the bacteria

PHILIPS

Features

PureSteam technology

PureSteam technology is an innovative technology that prevents calc from building up around the steamer's engine. It enables consistent powerful steam for years to come.

2-in-1 function

The 2-in-1 function enables both vertical and horizontal steaming. When steaming horizontally on a flat surface, you can achieve better results especially on tricky areas like collars and cuffs.

Fast heat-up time

Ready to steam in no time. Just plug it in, wait for less than 1 minute... steam & go!

Quick calc release

Thanks to the quick calc release, your appliance can last for longer with the same steam performance.

XL water tank

The 200 ml water tank enables steaming up to 3 garments in one go. Enough for your quick touch ups before leaving the house!

Continuous steam

Thanks to the electric pump, you do not need to pump manually. Just hold the trigger pressed and steam comes continuously.

SmartFlow heated plate

The SmartFlow heated plate prevents condensation on your garments while still being 100% safe on all your clothes even delicates.

Brush accessory

The brush attachment opens the fabric fibers and enables better steam penetration. It is especially good for thicker garments like jackets and coats. It can also help remove dirt and pills.

Safe on all garments

The steamer is safe to use on all fabrics. It is a great solution for delicate fabrics like silk and cashmere.

Safe rest

You can rest the garment steamer just by making it stand on its base. It is a very easy and safe resting position.

Remove odors & bacteria

Powerful steam removes cigarette, food and body odors. Steam also kills 99,9% of the bacteria. *

More powerful steam

Innovative PureSteam Technology is fundamentally different from other steamers. With up to 30g/min, it generates powerful steam which penetrates deeper into the garments, enabling you to remove creases faster.

Specifications

[field not found 'disclaimer_text']

Technology

PureSteam Technology	Yes
----------------------	-----

Fast crease removal

2-in-1 function	Yes
Continuous steam	Up to 28 g/min
Power	1500 W
