- PowerPro Compact: FC8470 - FC8479, FC9320 - FC9329

FC8058/01

Highlights

EPA10 washable motor filter

The kit contains 1 x EPA10 washable motor filter. This provides high filtration levels and prevents fine dust from reaching the motor and damaging it. The filter can be washed, and should be replaced once a year.

Motor inlet filter

The kit contains 1 x motor inlet filter (foam). This filter is providing additional protection to the motor and should be placed next to the EPA motor filter. The filter should be replaced once a year.

Exhaust foam filters

The kit contains 2 x exhaust foam filters. The filters catch even the finest dust before the air is expelled back into the room. This results in a clean, dust-free air in your home. The filters should be replaced once a year.
