PHILIPS

VisaPure

Increases absorption of creams

Cleansing with VisaPure means that you remove more make-up residue and dull and dead skin cells. Thanks to the deep cleansing effect, your favourite skincare products such as creams, serums and essences are better absorbed by the skin.

Face cleansing brush bristles

All VisaPure brushes have unique 5-in-1 bristle technology. Each bristle is polished twice and silky-soft ends ensure a smooth glide. VisaPure bristles are extra long for absolute skin comfort. To ensure efficacy, VisaPure bristles are up to 3 x smaller than your pores and the dense brush reaches more pores in one treatment to give a soft, luxurious feel whilst cleansing. The bristle material is specially selected to be water resistant.

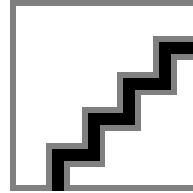

Click-on brush head

Simply click the brush head on and off. Easy to fit, our brush heads are compatible across all Visapure models.

Replace every 6 months

For best results, replace the brush every 6 months. The brush is easy to replace by simply pulling it off the device.

Designed for optimal hygiene

The silky soft bristle material of all our VisaPure brush heads is a specially chosen, delicate nylon. This helps to ensure the brush heads are super easy to clean and keep fresh.
