Highlights

Longer lifetime

Philips NanoProtect S3 filter has multiple optimised pleats. This covers an unfolded area of about 2 m² to ensure a long lifetime.

Superior performance

Philips NanoProtect S3 filter is made from high-quality material. It can capture up to 99.97% of particles even as small as 0.3 microns - the size of most common airborne allergens, harmful particles, bacteria and viruses. The high-grade filter with firm and stable structure ensures all the air flows through the filter and delivers high filtration efficiency.
