- Super Lift and Cut shaver for a comfortably close shave

Easy to use

- Replacement reminder

- Easy to replace shaving heads
- Reset your shaver after replacing shaving heads
- Reset your shaver to new

PHILIPS

Features

GentleTrack Precision Blades

The newly designed blades comfortably cut hairs in the optimal cutting position, thereby reducing irritation caused by tugging and pulling.

Super Lift & Cut Action

The dual-blade system built into our electric shaver lifts hairs to cut comfortably below skin level for a closer shaving experience.

Replacement reminder

The latest Philips shavers have an inbuilt replacement reminder in the form of a shaving unit symbol. This symbol will light up and indicate when to replace the shaving heads.

Simple replacement

1. Open the shaver by pressing the "release" button; 2. Remove the retainer by turning the lock anticlockwise; 3. Take out the old shaving heads and carefully insert replacements; check that the heads align exactly in the setting; 4. Replace the retainer and secure it by turning the lock clockwise; 5. When you close the shaving head properly, you will hear it click into place.
