# PHILIPS

# Highlights

## GentleTrack Precision Blades

The newly designed blades comfortably cut hairs in the optimal cutting position, thereby reducing irritation caused by tugging and pulling.

## Super Lift & Cut Action

The dual-blade system built into our electric shaver lifts hairs to cut comfortably below skin level for a closer shaving experience.

## Replacement reminder

The latest Philips shavers have an inbuilt replacement reminder in the form of a shaving unit symbol. This symbol will light up and indicate when to replace the shaving heads.

## Simple replacement

1. Open the shaver by pressing the "release" button; 2. Remove the retainer by turning the lock anticlockwise; 3. Take out the old shaving heads and carefully insert replacements; check that the heads align exactly in the setting; 4. Replace the retainer and secure it by turning the lock clockwise; 5. When you close the shaving head properly, you will hear it click into place.

## How to reset your shaver

After replacing the shaving heads, you can reset the replacement reminder by pressing the on/off button for more than 7 seconds. Otherwise, the replacement trigger will turn off automatically after 9 successive shaves.

## Reset your shaver to new

To get back to 100% performance, replace your shaving heads every 2 years.

# Specifications

## Shaving heads

- Fits product type: Shaver series 7000 (S7xxx)
- Shaving heads per packaging: 3

## Cleaning

- Usage: Use cleaning spray HQ110

Issue date 2017-11-11
