Active heat protection, for shiny healthy hair*

Continuous change of hot and cold airflow provides a pleasant sensation for hair and scalp. The drying power of 2200W and the TurboBoost setting give you the quick powerful drying and styling you need.

Beautifully styled hair

- 3 heat and 2 speed settings for full control
- Cool Shot sets your style
- Slim airflow concentrator for a perfect brushing
- 2200W of fast, high performance drying power
- Massaging diffuser to maximize volume & boosts curls
- Turbo boost for extra fast drying

Easy to use

- 1.8m cord for maximum flexibility
- Easy storage hook for convenient storage

Less hair damage

- Ionic conditioning for shiny, frizz-free hair

ThermoBalance Sensor

- ThermoBalance Sensor

Highlights

Accurate control

Easily set and control the heat and speed settings to create the perfect style. Choose from 3 heat and 2 speed settings for full control and precise drying and styling

Cool Shot sets your style

A must-have professional setting, the Cool Shot provides a burst of cold air. Use after styling to set and finish your style.

1.8m cord

1.8m cord.

11mm narrow concentrator

The slim styling nozzle concentrate the flow of hair through the 11mm opening for precision styling on specific areas. Great for touch ups or to set your style.

2200W of power

This 2200W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Massaging diffuser

The asymmetric massaging diffuser has a unique asymmetric design that is contoured to the head, making it easier and more intuitive to use. The diffuser spreads the flow of air across the hair, drying hair more healthy, boosting volume and reducing frizz. The rubber pins can be used to massage and stimulate the scalp and improve hair vitality. For best results, hold close to the crown and root area and let the diffuser's massaging pins add bounce and shape curls.

Easy storage hook

A rubberized hook can be found on the base of the handle. Use to store easily at home or if staying at a hotel.

Ionic conditioning

Give your hair an instant care with ionic conditioning. Charged negative ions eliminate static and conditions the hair to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

Turbo boost

The turbo boost button increases the airflow, to dry your hair even quicker.

ThermoBalance Sensor

The innovative built-in ThermoBalance sensor measures and adjusts the temperature 30 times a second so your scalp and hair cuticles stay protected. As a result you can enjoy moisture-rich hair with up to 22% more shine*.
