

PHILIPS

NanoProtect filter Series 2

Captures 99.5% of particles

FY0194/30

Intelligent purification

Captures 99.5% of particles

The NanoProtect Series 2 filter captures 99.5% 0.003 μm particles, including common allergens, dust, pollution and bacteria. The 12 month lifetime delivers long-lasting performance.

Long-lasting performance

- Lifetime of up to 12 months

Superior purification

- Captures 99.5% of particles

Highlights

Longer lifetime

Philips NanoProtect Series 2 filter covers an unfolded area of about 1.26m² to ensure a long lifetime of up to 12 months.

Superior performance

Philips NanoProtect HEPA Series 3 filter is made from high-quality material. It can capture up to 99.5%* of particles even as small as 0.003 microns — the size of most common airborne allergens, harmful particles and bacteria*. The high-grade filter with firm and stable structure ensures all the air flows through the filter and delivers high filtration efficiency.

Country of origin

Made in: China

Specifications

* Tested with Staphylococcus albus and Influenza A (H1N1).
* Philips Air Purifier traps 99.5% of particles as small as 0.003 microns that pass through the filter. Tested on the filter media for 1 pass efficiency at 5.33 cm/s airflow in 2015 by a third-party lab.
