\*Based on consumer testing in Germany comparing global leading One Touch (Coffee + Milk) Full Automatic Espresso Machines (2023).

\*\*\*Based on 8 filter replacements as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns.

# Highlights

## AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups\*\*, while enjoying clear and purified water.

## Quiet coffee making with SilentBrew

Our patented SilentBrew technology reduces machine sounds so you can enjoy the experience of brewing aromatic coffee more. Using sound shielding and quiet grinding, our machines make 40% less noise than earlier models and come with a Quiet Mark certification.

## LatteGo milk system

At the touch of a button, LatteGo automatically prepares silky smooth milk froth for your milky coffees, thanks to its powerful cyclonic frothing technology, even with your favorite plant-based milk alternatives.

## 100% ceramic grinders

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. The durable ceramic grinder can be adjusted in 12 steps, from fine to coarse grindings.

## Effortless, inspired coffee with the HomeID App

Learn the ins and outs of your machine and discover new cafe-style coffee recipes on our HomeID app.

## 6 hot & refreshing drinks

Enjoy 5 popular coffee recipes, from classic espresso, regular black coffee, cappuccino, latte macchiato, to iced coffee, with the perfect crema, aroma and temperature. Hot water for tea is also available. Our unique brewing system perfectly extracts the beans flavors with a slower flow rate and at lower temperature. Add ice cubes to your drink and enjoy a delicious iced coffee, with no compromise on coffee intensity.

## Fastest to clean milk system ever\*

LatteGo is the fastest to clean milk system with only 2 parts, no tubes and can be cleaned in 10 seconds under tap or in the dishwasher. Philips is not offering automatic cleaning as it requires complementary cleaning.

## Easy coffee selection and customization

Easily select your favorite drinks thanks to the modern touch screen display with colored icons. Adjust your coffee your way with the My Coffee Choice function: choose your preferred coffee strength, length, and milk froth level, just to your taste.

# Specifications

## Country of origin

Designed in: Italy

Made in: Made in Romania or China, please check the country of manufacture on the device or on the packaging.

## Customization
