- Tamp safely with our countertop-friendly tamping system
- PID temperature control and pre-infusion
- Metal conical burr grinder with 15 grind sizes
- Pressure gauge for precise coffee extraction
- European design with anti-fingerprint coated metal housing

Highlights

280gr dual bean container

Dive into a world of coffee variety with the 280g dual bean container preserving their freshness with our effective aroma seal. Elevate your coffee experience by exploring different bean types from light to dark roasts all at once while ensuring each brew retains its rich aroma.

58mm steel portafilter

Indulge in a rich coffee and crema delivered directly to your cup through the professional-grade 58mm stainless steel portafilter and single & dual-walled filter baskets. This portafilter size allows you to create a beautiful golden-brown espresso with aromatic foamy crema while providing more consistent extraction across the coffee puck due to a wider distribution of water. Plus, it accommodates a larger dose of coffee grounds for a richer and more robust brew.

Premium calibrated tamper

Tamp your ground coffee beans effortlessly using the stainless steel calibrated tamper with a flathead, ensuring the right tamping pressure and creating a balanced, consistently leveled tamping surface. Elevate your coffee brewing experience with precision and ease.

Americano button

Immerse yourself in the essence of a true Americano with just a simple press of a button, now enhanced with the added convenience of an integrated hot water outlet.

Perfect temperature milk jug

Enjoy the ease of creating smooth microfoam perfect for latte art with our 450ml temperature perfection milk jug and powerful steam wand. The temperature strip on the milk jug enables you to achieve the right milk foam temperature and create the velvety texture effortlessly to savor your coffee just the way you like it.

Countertop-safe tamp system

Elevate your coffee routine with our countertop-safe tamping system. Achieve the perfect tamp confidently and conveniently, without any risk to your countertops thanks to the integrated tamping rubber on the bottom of the portafilter.

PID temperature control

The PID temperature control system ensures the accuracy and stability of brewing temperature. The pre-infusion system helps prevent a channeling effect. Only full integration of both systems can ensure a balanced extraction.

Metal conical burr grinder

Uncover new flavor depths with 15 different grind sizes (superfine to coarse) from the metal conical burr grinder. To enhance your espresso's flavors, consider using a finer grind, like setting 4, in your recipes.

Pressure gauge

Achieve precise water pressure thanks to the integrated pressure gauge that guides your brewing status and alerts when optimal pressure has been reached.

Specifications

General Specification

Profiles: No
Number of servings: 2
Built-in grinder: Yes
Grinder settings: 15
Pressure: 15 bar
Bean container capacity: 280g
Milk frothing: Yes
Drinks: Americano, single and double espresso, milk foam, hot water
Primary Material: Metal
Milk solution: Classic Milk Frother
Capacity Watertank: 2,3l
Pre-programmed drinks: 4
Technology: PID temperature control system
Milk container: 450 ml (Milk Jug)
Product Type: Semi-automatic espresso machine
Portafilter Material: Metal
Interface: Control panel with buttons
Connectivity: No
Warranty: 2 years
Dishwasher safe parts: Yes
Coffee source: Fresh beans
User involvement: Full control

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Technical Specifications

Energy Efficiency rating: Class A
Power: 1350W
Voltage: 120 v
Frequency: 60 Hz
Number in pack: 1

Weight and Dimensions

Product Length: 334mm
Product Width: 320mm
Product Height: 439mm
Product Weight: 8,6kg
Package Length: 420mm
Package Width: 380mm
Package Height: 502mm
Package Weight: 12,4 kg

Country of Origin

Produced In: China

Compatability

Included Accessories 1: Portafilter
Included Accessories 2: Single and Double / 1cup & 2cup Wall Filter Baskets
Included Accessories 3: Calibrated Tamper
Included Accessories 4: Powder ring
Included Accessories 5: Espresso stand
Related Accessories 1: Coffee oil removal tablets
Related Accessories 2: Espresso machine descaler

Durability

Packaging: > 95% recycled material
