Highlights

Easy to clean

Nonstick plates and grease tray are easily removed to make cleanup a breeze.

High power

2200 watts of power heat the grill plates quickly and maintain a precise, constant temperature for perfect results.

Adjustable temperature

Set the perfect temperature every time to cook sandwiches, meat and vegetables just the way you like them.

Adjustable height

Easily adjust the height of the top grill plate for thicker foods or open-faced sandwiches.

Large grill surface

Whether you're cooking for one or many, the large grilling area handles it all.

Removable nonstick plates

Whatever you make, grilling and cleanup are a snap with removable nonstick grill plates.

Open flat for grilling

Flip the sandwich press open 180° to grill meat and vegetables on both sides at once.

Removable drip tray

Melt away fat and capture it all in the drip tray that removes for easy cleaning.

Handle lock

Close and lock the handle to safely carry and store your grill.
