

Philips Air Humidifier 5000 Series

HU5710/00

- Effectively promotes optimal humidity levels
- Hygienic humidification with NanoCloud technology
- Create a comfortable atmosphere to suit your mood
- Easy to use & smart control

Breathe the difference

Humidifies the air hygienically

- Helps to combat dry air symptoms
- Effective in rooms up to 56 m² with 400 ml/h
- Continuous humidification for up to 37 hours
- Up to 99% less bacteria: ideal for baby & toddler rooms
- Leaves no white dust or wet spots on floors and furniture
- QuickDry mode for faster filter drying (patent pending)
- Add your own essential oils and enjoy soothing aromatherapy
- Elevate your ambience with coloured ambient lighting
- Sleep mode, quiet operation (max 12 dB(A)) and night light
- Unlock smart features in the Air+ app.
- Refill made easy: top and side-fill water reservoir
- Low energy consumption

** (2) Tested by GB/T 23332-2018 in a third-party laboratory. Initial temperature of 23±2°C and relative humidity of 30±2% RH.

*** (3) Calculated using AHAM HU-1-2016 clause 7.3 based upon the humidification performance tested according to GB/T 23332-2018 in a third-party laboratory.

**** (4) Compared to standard ultrasonic humidifier modules that do not contain additional technology to reduce the spread of bacteria, as tested by an independent lab

***** (5) Deposition of minerals on furniture was tested by a third party laboratory over a period of 3 hours according to DIN 44973, CAS TESTING

Effectively promotes optimal humidity levels, Hygienic humidification with NanoCloud technology, Create a comfortable atmosphere to suit your mood, Easy to use & smart control

HU5710/00

Highlights

Combat dry air symptoms

Balanced humidity levels help to improve perceived air quality (1). This humidifier is developed to soothe discomfort caused by dry air, such as dryness affecting the skin, lips, nasal passages and eyes, as well as throat irritation, nasal congestion and static electricity. And it helps to keep your indoor plants well-hydrated, promoting a healthier home environment.

Powerful humidity rate

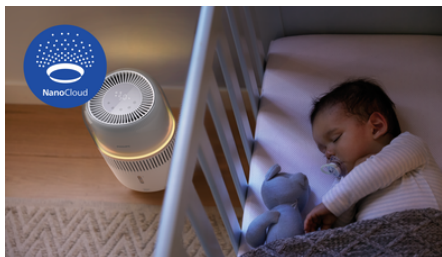

The 3 fan speeds and automatic settings ensure the performance and comfort you choose. Thanks to the emission of up to 400 ml/h, every room up to 56 m² is effectively humidified. (2,3)

Run time

Breathe comfortably with minimal refills. The XL 4,5L water reservoir offers up to 37 hours of continuous use for your convenience. Enjoy a comfortable atmosphere with fewer interruptions.

Ideal for baby room

There is no other technology that releases cleaner water vapor into the air than Philips NanoCloud. Its ultra-fine mist is extremely difficult for bacteria to adhere to. The advantage is air humidification with up to 99% less bacteria released than standard ultrasonic humidifiers(4), making this humidifier an ideal solution for baby rooms, and safe to use with tap water.

No white dust

NanoCloud's invisible mist does not release white dust or leave wet patches (5). Larger droplets emitted by ultrasonic humidifiers may dampen the surroundings and carry minerals that leave white residue on nearby surfaces. NanoCloud particles are too small to carry minerals, effectively preventing residue and stains.

QuickDry mode

Don't give microbes a chance and prevent moisture buildup with the smart QuickDry mode (patent pending). It uses the power of the fan to dry the filter faster and a sensor to turn off the device once the filter is dry. The result? More hygienic filter maintenance, and a prolonged filter lifespan.

Aromatherapy

Experience all the benefits of aromatherapy with our humidifier's aroma add-on feature. Infusing the mist with your preferred essential oils, allowing you to enhance your overall well-being.

Ambient lighting

Whether you prefer a warm glow for relaxation or a bright, energizing scene, this humidifier allows you to set the mood with ambient light to complement any moment.

Use in the bedroom

Experience a comfortable night's sleep with optimal humidity and wake up more refreshed. Sleep mode ensures the device works quietly yet efficiently during the night. Use the night light to create a relaxing bedtime environment.

Specifications

General Specification

Product Type: Humidifier
Technology: Evaporative humidification
Color: White/Silver
Primary Material: Plastic
Internet connectivity: Yes
Wi-Fi range: 2,4 GHz
Capacity Watertank: 4,5 L

Energy efficiency

Stand-by power consumption: < 0.5 W
Voltage: 220-240 V
Maximum power: 14,1 W

Maintenance

Warranty: 2 years
Filter lifetime: Up to 6 months

Compatability

Included Accessories 1: Humidification filter
Included Accessories 2: Aroma pads (3 units)
Related Accessories 1: Humidification filter (FY5030)
Related Accessories 2: Aroma pads (FY5100)

Country of Origin

Produced In: China

Technical Specifications

Humidity sensor: Yes
Min. sound level: 12 dB(A)
Max. sound level: 34 dB(A)

Performance

Runtime: 37 hours
Humidification rate: 400 ml/h
Max. room size: 56 m²

Usability

Cord length: 1,5 m
Modes: Automatic mode, sleep mode
Speed settings: Sleep, medium, high
Humidity settings: 30-70 % (in steps of 5%)
Timer: 1-12 hour(s)
Air quality feedback: Color ring, numerical
Interface: Touch, numerical, LED
Water tank empty alert: Yes

Safety feature

Automatic shut-off: Yes
Water tank full alert: Yes

Weight and Dimensions

Product Height: 378 mm
Product Weight: 2,125 kg
Package Length: 271 mm
Package Width: 279 mm
Package Height: 428 mm
Package Weight: 3,052 kg
Product Length: 230 mm
Product Width: 233 mm
