***** (9) Tested to GB21551.3-2010 with S. Albus, 30m³ chamber, 1h, Turbo mode, 3rd party lab

***** (10) External GMT lab test to GB/T 18801-2022 with TVOC, Toluene and NO₂: 30 m³ room, Turbo mode for 1h.

Highlights

CADR of 420m³/h

With powerful filtration of 420 m³/h (CADR) (1), it can easily purify spaces up to 109 m² and can clean a 20 m² room in less than 7 minutes (2).

Our quietest air purifier

Experience our quietest purifier, with SilentWings technology. Inspired by the silent flight of owls, our fan-blade design ensures purification as quiet as 13 dB(A).

3-layer HEPA filtration

3-layer filtration made of a pre-filter, HEPA NanoProtect and Active Carbon captures 99.97% of particles as small as 0.003 microns (4) — smaller than the smallest known virus!

Long filter lifetime

Original filters ensure optimal performance for 3 years (5), reducing hassle and cost. The purifier calculates filter life and alerts you when a replacement is needed.

With a soothing nightlight

Select the kids Bedtime Routine schedule to thoroughly clean the air before your kid's bedtime begins. The device then switches to quiet Sleep mode, whilst a gentle nightlight stays on. So little ones feel safe in the dark, and parents feel reassured throughout the night.

Captures allergens

All-day protection for allergy sufferers. Removes 99.99% of dust-mite, pollen, pet or mold-spore allergens (6), known triggers of allergy or hay fever symptoms (7). ECARF certified allergy-friendly.

Captures viruses and bacteria

Removes 99.9% of airborne viruses and bacteria. Independently tested to eliminate H1N1 influenza virus (8) and Staphylococcus bacteria (9).

Captures smells and gases

The Active Carbon layer captures odors and removes >95% of gas pollutants that hurt indoor air (10): NO₂ from industry and traffic pollution, Toluene or VOCs from house paint, detergents and furniture. Safe and effective: no ions, chemicals or ozone emitted.

Low energy consumption

Enjoy cleaner air while keeping your energy bill low. At maximum power, the air purifier uses only 28 W, less energy than a traditional light bulb.
