

Philips
Foot massager

Air and roller
massage

PPM6333

Comfort for tired feet

with air compression, rollers and warmth

Unwind at home with the Philips PPM6333. Airbags surround your feet while rollers massage the soles. Adjustable pressure, warmth and a timer let you choose your settings.

Surrounding air massage

- Airbags massage the instep and ankle
- 3 air-pressure levels: low, medium and high

Targeted sole massage

- 3 zones: ball of foot, arch and heel
- 22 raised massage points; 2 kneading levels

Warmth and timing

- 2 heat settings: 43 / 48 °C*
- Choose a 15- or 30-minute session

Simple everyday use

- Digital display with 5 control buttons
- Fits EU sizes 35-46; removable, washable foot liner

* See specifications for temperature settings and measurement notes.

PHILIPS

- Master carton: 595 x 385 x 370 mm
- Master carton gross weight: approx. 11.5 kg
- Packing quantity: 3 units per carton

Highlights

Surrounding air compression

Airbags inflate and deflate around the instep and ankle, applying rhythmic pressure around the feet.

Three-zone sole massage

The rotating massage system has 22 raised contact points in total and works across the ball of the foot, arch and heel.

Adjustable massage intensity

Choose from 3 air-pressure levels and 2 kneading levels to set the massage intensity.

Two warmth settings

Choose 43 or 48 °C warmth settings. Heating pads with NTC temperature sensing regulate the heating function.*

Clear digital controls

The digital display and 5 function buttons let you set warmth, massage intensity and session time from the top panel.

15- or 30-minute timer

Choose between two timed sessions to fit your daily relaxation routine.

Fits EU sizes 35-46

The enclosed foot chambers accommodate a range of foot sizes for use at home.

Removable, washable foot liner

Remove only the washable foot liner as directed in the user instructions. Do not open the main housing.

* The supplied product comparison lists temperature settings of 43 / 48 °C. Test conditions, measurement location and tolerance were not specified. Actual temperatures may vary.

Use the supplied power adaptor. Check its input rating and plug type for the destination market.

Read the user instructions before use. This leaflet does not replace the user manual.
