

Philips
Foot massager

Air and sole
massage

PPM6566

Foot comfort your way

with three modes and adjustable intensity

Relax at home with the Philips PPM6566. Air compression, sole kneading and warmth combine with 3 massage modes, 3 intensity levels and 3 timer settings.

All-round foot massage

- Airbags massage the instep and ankle
- 3 sole zones: ball of foot, arch and heel

Choose your massage

- 3 massage modes and 3 intensity levels
- 5-button control panel

Warming comfort and timing

- 45 °C warming function*
- 10-, 15- or 20-minute timer settings

Practical home use

- Fits EU shoe sizes 35-45
- Removable zip-off foot liners for easier cleaning

* Temperature is stated as 45 ±5 °C. See specifications for test notes.

PHILIPS

Specifications

- Rated device input: 12 V DC
- Rated power: 36 W
- Power adaptor included
- Adaptor input: 100-240 V AC, 50/60 Hz
- Adaptor input current: 1.2 A max.
- Adaptor output: 12 V DC, 3 A

Design specifications

- Dimensions: 370 x 260 x 420 mm
- Net weight: approximately 3.82 kg
- Suitable shoe sizes: EU 35-45
- Colour shown: white and dark blue
- Body material: ABS with baked paint finish
- Anti-slip base pads

Controls

- Control: integrated top panel
- 5 function buttons
- Power on/off
- Massage mode
- Massage intensity
- Warming function
- Session timer
- Voice prompts: no

Cleaning

- Removable foot liners
- Zipper fastening
- Follow the user manual for liner cleaning and refitting

In the box

- Foot massager
- Power adaptor
- User manual with warranty card
- Benefit card
- Product certificate

Packaging

- Retail box: 430 x 275 x 475 mm
- Retail box gross weight: 5.5 kg
- Master carton: 445 x 290 x 490 mm
- Master carton gross weight: approx. 6.4 kg
- Packing quantity: 1 unit per carton

Highlights

Surrounding air massage

Four airbags, two for the insteps and two for the ankles, inflate and deflate to apply pressure around the feet.

Three-zone sole massage

The sole system combines rolling kneading at the ball of the foot, pressure at the arch and point massage at the heel.

Three massage modes

Mode 1 combines gentle sole kneading and air compression. Mode 2 uses moderate sole kneading with air compression. Mode 3 uses air compression only.

Three intensity levels

Select one of 3 intensity levels to adjust the strength of your massage.

45 °C warming comfort

Sole warming uses NTC temperature sensing. The stated temperature is 45 °C with a ±5 °C tolerance.*

10-, 15- or 20-minute timer

Three timer options let you choose the duration of your massage session.

Simple five-button control

Dedicated buttons control power, mode, intensity, warmth and timing from the top panel.

Removable foot liners

Unzip and remove the fabric liners for easier cleaning. Follow the user manual before cleaning and refitting them.

* The 45 °C warming value is based on internal testing; the technical data specify ±5 °C. Measurement conditions and location were not specified. Actual temperatures may vary.

Use the supplied power adaptor. Check the adaptor input rating and plug type for the destination market.

Read the user instructions before use. This leaflet does not replace the user manual.
