- Product weight: 1.3 kg
- Weight incl. Packaging: 1.5 kg

## Power

- Power supply: 100 - 240V AC, 50/60Hz

# Highlights

## Dynamic Bass Boost (DBB)

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

## Bluetooth music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to other Bluetooth devices, so you can play your favorite music from your iPod, iPhone or iPad on your Philips audio system - conveniently, anytime you want.

## DockStudio app on App Store

The free Philips DockStudio app brings lots of cool exclusive features to your docking speaker. You can listen to your favorite radio shows, discover new music with thousands of Internet radio stations worldwide, browse through your music collection and share what you're listening to with friends via Facebook and Twitter. In Clock mode, it lets you set multiple customized music alarms and gives updated weather reports. Download it from App Store and find out more.
