# Highlights

## 2200 Watt motor

2200 W motor generates max. 500W suction power for excellent cleaning results.

## TriActive+ nozzle

The TriActive+ nozzle applies 3 cleaning actions in one go: 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down 2) It sucks up big bits with its larger opening at the front 3) It sweeps up the dust and dirt closely alongside furniture and walls with its two side brushes

## Turbo Brush nozzle

The Turbo Brush nozzle allows deep cleaning of carpets, easily removing hair and fluff. The

rotating brush inside the nozzle actively removes small dust particles and hairs, resulting in a better cleaning performance on carpets. The wheels of the nozzle prevent damage in case of use on hard floors.

## HEPA AirSeal with HEPA12

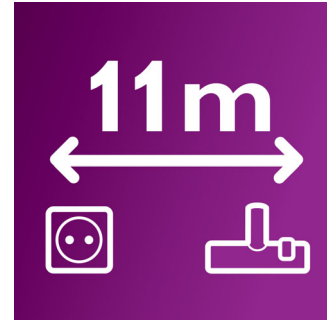

HEPA 12 filter and AirSeal capture even the finest dust before the air is blown out for a dust-free environment and clean, allergen free air. The exhaust air is even cleaner than the air in the room.

## s-bag Ultra Long Performance

The Philips s-bag Ultra Long Performance made of five layers of high quality, non-clogging material captures even the finest dust. This excellent filtration gives you a better cleaning result and clean air in your home. The multilayer filtration also maintains the vacuum cleaners high suction power during the entire lifetime of the bag. The s-bag ULP has been tested and certified by the independent test institute TÜV Rheinland Group, proven to last up to 80% longer than a standard dustbag.

## Long reach

11 m reach allows you to clean a larger surface without having to switch the plug.

## 5L dust capacity

The specially designed 5L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

## Airflow Max technology

Airflow Max technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get the highest suction power, even as the bag fills-up!
