- Straightening comb catches and guides the hair easily

Easy to use

- 1.8 m power cord
- Three flexible settings for more control
- Compact design for easy handling
- Easy storage hook for convenient storage

PHILIPS
sense and simplicity

Highlights

1.8 m cord

1.8 m power cord

Three flexible settings

The speed and heat required can be easily adjusted to create the perfect end result. Three flexible settings ensure precise and tailored styling.

650W

This airstyler has a low level 650W heater for gentle yet effective drying and styling.

Compact design

Compact and ergonomic, this styler benefits from a clever modern design. This results in a styler that is light and easy to handle yet small enough to store virtually anywhere.

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

Retractable bristle brush

This easy to use airstyler is both a styling brush and curler in one. The bristles retract into the brush at the touch of a button, so you can easily slide the styler out of your hair. What's left is a beautiful bouncy curl.

Shaping brush

Brush and dry your hair at the same time with this easy to use attachment. The brush combined with the directed airflow will leave your hair smooth and shiny.

Straightening comb

The airflow is directed on to the comb as it glides through the hair to achieve beautiful straight results easier than ever. The comb can be used for precision straightening or for touch ups.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.
