PHILIPS

sense and simplicity

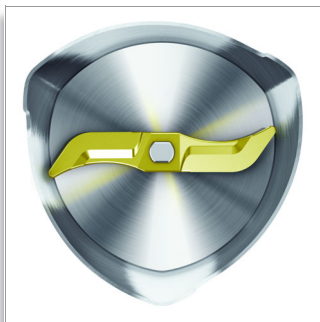

Highlights

'ProMix'blending technology

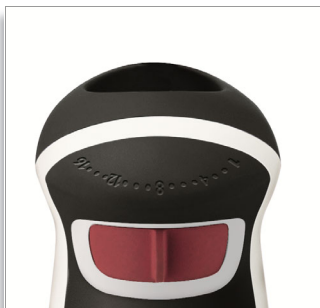

Together with the prestigious Stuttgart University we developed an advanced technology for more consistent and faster blending. The unique ProMix blending technology uses a triangular shape to create an optimal flow and now gives even better performance making your silky smooth soups and smoothies.

Titanium coated blade

The blending knife is coated with a Titanium layer (TiN), which makes the knife six times harder than regular stainless steel knives to ensure the performance over time.

16-speeds and turbo

With 16 speed settings you can select the optimal speed for all type of ingredients

creating the preferred consistency or smoothest blending results.

Extra powerful turbo button

The Philips hand blender has an extra powerful turbo button for the toughest ingredients.

Anti-splash blade guard

The Philips hand blender has an anti-splash blade guard that prevents splashing during use.

1 L beaker

1 L beaker to store soups, puree or shakes

Whisk accessory

Whisk accessory for whipping cream, mayonnaise and much more.

XL chopper accessory

XL chopper accessory for chopping large quantities

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
