- All pulp collected in one place for easy disposal
- Smooth surfaces and easy-clean materials
- All parts are dishwasher safe

Squeeze every drop from your fruits and vegetables

- Make up to 2 liters of juice in one go.
- Powerful 700 W motor

Easy to use

- No pre-cutting thanks to the XL feeding tube (75mm)
- Easy checking of the pulp with see-through pulp container
- Quick and easy assembly of all parts

Juicer
700 W 2 liter, XL tube

HR1855/05

Highlights

QuickClean technology

A lot of pulp fibers usually get stuck in the sieve which makes it very difficult to clean. Thanks to the electropolished process, all surfaces of the sieve are smooth. This helps you swip away the fibers with a standard kitchen tool (sponge or brush).

All pulp in one place

The pulp will all be collected in the only place where it should be: in the pulp container of your Philips juicer. That means there is no need to remove pulp from other parts such as the lid anymore. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.

Smooth surfaces and easy-clean

Smooth surfaces and easy-clean materials

Dishwasher-safe

All removable parts can be cleaned in the dishwasher.

Make 2 L of juice in one go

Thanks to the innovative juice extraction system with QUICKClean technology, this juicer extracts up to 2 liters of juice in one go without the need to empty the pulp container.

700 W motor

700W

Strong 700 W motor for blending, mixing and crushing effectively.

XL feeding tube

The 75 mm extra large feeding tube allows you to juice even large fruits and vegetables like apples, carrots and beetroots without pre-cutting.
