- Spout accessory to juice straight into your glass
- Quick and easy assembly of all parts

Delicious and easy to make recipes

- Recipe booklet full of inspiring juice recipes

PHILIPS

Highlights

Quick and easy assembly

Quick and easy assembly of all parts

All pulp in one place

The pulp will all be collected in the only place where it should be: in the pulp container of your Philips juicer. That means there is no need to remove pulp from other parts such as the lid anymore. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.

Dishwasher safe parts

All removable parts are dishwasher safe

Make 2.5 L in one go

Thanks to the innovative juice extraction system with the upside down sieve, this juicer extracts up to 10% more juice*. And depending on the type of fruit or vegetables one juices, it is possible to make up to 2.5 liters of juice in one go without the need to empty the pulp container.

XXL feeding tube

The 80 mm extra large feeding tube allows you to juice even large fruits and vegetables like apples, carrots and beetroots without pre-cutting.

Quick clean sieve

Thanks to an innovative technology, the fibers of the fruit and vegetables do not get stuck so easily in the mesh. The quick clean sieve can be even be cleaned with a normal sponge.

Spout accessory

If you prefer to juice directly into a glass, use the spout accessory of the Philips juicer to prevent splashing on the countertop.

Recipe booklet

You can use the recipe booklet full of inspiring ideas for your daily juicing.
