

Philips GoGEAR
MP4 player with
FullSound™

Muse

16GB*

GoGEAR

SA4MUS16KF

Superior sound experience

Even in the noisiest settings

Dance to music that never sounded better. GoGEAR Muse MP4 player features FullSound for exceptional clarity, SafeSound for damage-free listening, a 2.8" capacitive touchscreen for ease of use, and Surround for movies for broader sound.

Superb quality sound

- Fullsound™ to bring your MP3 music to life
- Sound Isolation headphones to minimize environmental noise
- SafeSound for maximum music enjoyment without hearing damage

Complements your life

- 2.8" QVGA capacitive touchscreen for effortless navigation
- microSD card slot for expanded memory capacity
- Enjoy up to 26 hours of music or 5 hours of video playback
- FM radio with RDS and 20 presets for more music options

Easy and intuitive

- Sound personalization for fun customization of your music
- Philips Songbird: one simple program to discover, play, sync
- LikeMusic for playlists of songs that sound great together

PHILIPS

sense and simplicity

Highlights

FullSound™

Philips' innovative FullSound technology faithfully restores sonic details to compressed MP3 music, dramatically enriching and enhancing it, so you can experience CD music without any distortion. Based on an audio post-processing algorithm, FullSound combines Philips' renowned expertise in music reproduction with the power of the latest generation Digital Signal Processor (DSP). The result is fuller bass with more depth and impact, boosted voice and instrument clarity, and rich detail. Rediscover your compressed MP3 music in true-to-life sound that will touch your soul and move your feet.

Sound isolation headphones

With sound isolation headphones, you will hear greater music details at a lower volume than is possible with normal headphones. Based on thorough understanding of the human ear canal anatomy, the sound isolation headphone's angled acoustic design creates a perfect seal between the ambient sound source & the ear canal, thus eliminating unwanted background noise while delivering sound directly to your ears. Even at a moderate volume setting, you can still discern music details without noise distractions from

the environment. Earphone sleeves are available in three sizes to provide the best fit.

SafeSound

Now you can enjoy your music freely and fully without worrying about the risk of hearing damage. Created by Philips, SafeSound consistently analyzes the sound level on your Philips GoGear MP3 player and alerts you if the volume and exposure could have possible impact on your long-term hearing. You can take action by adjusting the volume to a lower level or allow SafeSound to automatically regulate the volume for you – no need to fiddle with any settings. In addition, SafeSound provides daily and weekly overviews of your sound exposure so you can take better charge of your hearing health.

Capacitive touchscreen

GoGEAR Muse takes away the uncertainty in entertainment enjoyment. With its capacitive touchscreen, you can take full control of your music and movies. The capacitive screen is incredibly responsive, letting you use your GoGEAR Muse through gestures with complete ease. What's more, the touchscreen is designed to maintain visibility in different lighting conditions, and to keep away dust

particles, giving you an even clearer picture of what you play. GoGEAR Muse delivers crystal clear entertainment, always.

microSD card slot

Small is beautiful when it comes to mobile devices, but not memory capacities. With the GoGear player, you can have the best of both worlds just by plugging in a microSD card. The microSD card will show up as a second removable drive when the player is connected to your PC for easy file transfer. Just load your card with the desired content and slot it into your player. You can purchase up to 32GB memory card to expand your GoGear memory capacity, so you never have to worry about running out of entertainment choices.

FM radio with RDS/ 20 presets

RDS (Radio Data System) is a communications protocol standard that allows digital information to be transmitted over FM radio broadcasts. RDS-enabled FM radio receivers can display this useful information that includes station identity, program details and song title and artist, etc. At anytime, you can store a desired station as a preset channel on your GoGear player. With 20 preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

Specifications

Picture/Display

- Backlight
- Type: LCD Touch-sensitive screen
- Diagonal screen size (cm): 7.1 cm
- Diagonal screen size (inch): 2.8 inch
- Resolution: 320 x 240 pixels
- Aspect ratio: 4:3

Sound

- Sound Enhancement: FullSound, SafeSound
- Equalizer customizable
- Sound personalization
- Channel separation: 45 dB
- Frequency response: 60 - 18k Hz
- Output power (RMS): 2 x 2.5 mW
- Signal to noise ratio: > 84 dB

Audio Playback

- Compression format: MP3, WAV, WMA, M4A
- ID3 Tag support: Song title, artist, album
- Digital Rights Management: No
- MP3 bit rates: 8-320 kbps and VBR
- MP3 sample rates: 8, 11.025, 16, 22.050, 24, 32, 44.1, 48 kHz
- WMA bit rates: 8kbps-320kbps
- WMA sample rates: 8, 11.025, 16, 22.050, 32, 44.1, 48 kHz

Video Playback

- MPEG4 SP/ASP: Upto 720p resolution, 25 fps, bitrates up to 4Mbps in .avi and .mp4 containers
- MPEG4 AVC/H.264 HP: Upto 720p resolution, 25 fps, bitrates up to 4Mbps in .avi and .mp4 containers
- RMVB: Upto 720p resolution, 25 fps, bitrate upto 2 Mbps in .rmvb container
- WMV9: No

Still Picture Playback

- Picture Compression Format: JPEG, PNG, BMP, GIF
- Slide show

Audio Capturing

- Built-in microphone: mono
- Voice recording: in WAV, Yes

Tuner/Reception/Transmission

- Tuner Bands: FM
- Station presets: 20
- RDS: Radio Text, Station Information, Station Name
- FM radio recording: in WAV, Yes

Storage Media

- Built-in memory type: NAND Flash

- Built-in memory capacity: 8 GB
- Music memory capacity, MP3: Up to 1800 tracks*
- External Storage: Micro SD memory card slot
- Maximum memory card capacity: 32 GB
- Mass storage class compliant
- Mass Trans. Protocol Compliant

Connectivity

- Headphone: 3.5 mm
- USB: USB 2.0

Convenience

- Function: Keypad lock
- Superscroll: No
- Firmware upgradeable: Yes, via SongBird
- Battery low indication
- Battery charging indication: On User Interface
- Charge & play: when connected to a PC
- Customizable volume limit: No
- Dedicated volume controls

Accessories

- Headphones
- Quick start guide
- USB cable

Green Specifications

- Lead-free soldered product

System Requirements

- USB: Free USB port
- Internet connection: Yes (for access to updated support documents, manuals, future firmware and PC software upgrades)
- PC OS: Windows XP (SP2)/ Vista/ 7

Power

- Battery Type: LI-Polymer
- Rechargeable: Yes, via USB
- Battery capacity: 1000 mAh
- Playtime on internal battery: Up to 26 hours music playback or 5 hours video playback

Dimensions

- Packaging type: D-box
- D-box dimensions (WxDxH): 90 x 30 x 150 mm
- Product dimensions (WxDxH): 54.7 x 10.7 x 99.5 mm
- Product weight: 0.0835 kg

Software

- Philips Songbird

Partners

- 7digital
- Audible
