Highlights

OptimalTemp technology

Optimal Temp technology is the only technology which maintains the perfect combination of temperature and steam so you no longer need to adjust the temperature when ironing different fabrics. The perfect combination of steam and temperature because: 1) Smart Control Processor setting the right temperature 2) HeatFlow technology enabling an even steam and temperature balance.

100% safe

100% safe on all fabrics even the most delicate like silk, cashmere, wool, polyester. Independent iron testing institutes have used PerfectCare on the most sensitive ironable garments and they confirmed the excellence of ironing results.

100% fast

100% fast to iron, no sorting required. Iron all your garments with more effective steam.

100% easy to use

100% easy to use, no adjustment required. You can now iron all ironable garments one after the other, without having to wait or to adjust the iron's temperature dial.

Tested & approved by experts:

T-ionicGlide soleplate

T-ionicGlide is Philip's most premium soleplate. Delivering a new standard in glide and scratch resistance for OptimalTemp irons. The patented new coating will secure excellent results. The carefully designed shape and vent holes provide an even steam distribution for easy crease removal with the steam iron.

Deep ionized steam

The unique composition of ions automatically released into the steam results in an optimal, hygienic ironing on all ironable garments.

Suitable for tap water

PerfectCare Azur steam iron is designed to be used with tap water. Double Active Calc Clean: A smart combination of Calc Pills and a regular Self Clean reduce the scale built-up. For better ironing results we recommend to use deminaralized water. This ensures a consistent steam flow from your iron.
